

Dear FCC,

I am deeply saddened that there is discussion to replace K-LOVE (94.3) with a LPFM station. K-LOVE is a much welcomed station in our community and we receive much benefit from listening to this family-friendly station. K-LOVE sends out positive messages to an environment, promotes love, hope, faith, joy, messages that build people up rather than tearing them down. I urge you to consider in length the pros and cons of this decision making while looking at it from a family perspective, let's preserve the American family by promoting causes that encourage family values and strengths.

Thank you,
Sincerely,
a K-LOVE listener,
Amy Milan
